Cautions

Federal law restricts this device to sale by or on the order of a Licensed Dental practitioner.

Cautions on Safety

- Be careful not to damage the USB / Video cables. Be sure to hold the plug when disconnecting the cable.
- Do not place a container with water or liquid, or any small metallic objects on this unit. If water, liquid, or any metallic object enters this unit, disconnect the USB cable immediately and contact Digital Doc.
- If smoke, abnormal sound or smell occurs, disconnect the USB / Video cables cable and contact Digital Doc.
- When the unit is not in use for a long time, disconnect the USB / Video cables cable.
- Do not apply impacts to this unit.

Cautions on Installation

- Do not install this unit in a poorly ventilated place, a dusty place, an unstable place, or where soot or steam occurs.
- Do not use this unit in high temperatures (higher than 40 degrees C) or at temperatures (lower than 0 degrees C).
- Do not use in surgical theaters in hospitals where safety requirements are different from a standard dental clinic.
- It is recommended the unit be turned OFF after 10 Minutes of use to prevent increase of temperature at L.E.D. head.

Cautions on Cleaning

- Disconnect all video / power / USB cables before cleaning.
- Do not wipe the surface using benzene, Dicide, thinner, or Glutaraldehyde, as this may degrade the lens, or damage the handpiece material.
- Lightly wipe off dirt on the cover and or lens with a soft cloth (i.e. flannel, 2x2, etc.)
Important Safeguards

Installation

- Read and follow Instructions- All of the safety and operating instructions should be read before the intraoral camera is operated. Follow operating and usage instructions.

- Retain instructions - The safety and operating instructions should be retained for future reference

- Heed warnings - Comply with all warnings on the camera and in the operating instructions

- This camera should be operated only from the type of power source indicated.

- Attachments - Do not use attachments unless recommended by the camera manufacturer.

- Do not use this camera near water.

CAUTION

MAINTAIN ELECTRICAL SAFETY. POWER LINE OPERATED EQUIPMENT OR ACCESSORIES CONNECTED TO THIS UNIT SHOULD NOT HAVE BEEN MODIFIED SO AS TO DEFEAT THE SAFETY FEATURES. THIS WILL HELP TO AVOID ANY POTENTIAL HAZARD FROM ELECTRICAL SHOCK OR FIRE. IF IN DOUBT, CONTACT QUALIFIED SERVICE PERSONNEL.
**System Requirements and Software Compatibility**

**Computer system requirements**
Refer to the minimum requirements of your imaging software
- 2 Ghz Pentium 4 processor
- 1 GB of RAM minimum 2 GB or above recommended
- USB 2.0 interface with high power port
- CD-ROM or DVD drive
- Imaging Software
- Internet connectivity recommended
- Windows XP Professional or above with a minimum of Service Pack 2

---
The IRIS LTE Handpiece

The LTE handpiece is NOT submersible and should be cleaned with an isopropyl alcohol only. Do not use any abrasive cleaners such as Glutaraldehyde or Discide.

The LTE camera will automatically shut off after 10 Minutes, if the camera is left idle.

Mirror / Anatomic Image

With the camera unplugged, press and hold both the power and light button. Plug the USB cable into the camera, while holding the buttons. The LED’s will flash. Unplug the camera and then plug it back in. The image will now be flipped.
Camera Controls

Please see the Practice Software section of this manual for capture information.

The Light ON / OFF feature can be used to take images of X-rays that are back-lit.
It is recommended that the camera be turned OFF when not in use.

It is normal for the handpiece to be warm while in use. Heat is a factor in any electronic device. It is recommended that the LTE camera be turned OFF when not in use and not exceed continued use of more than 10Min.
The IRIS LTE Sheaths

The LTE camera will come with a sample pack of sheaths. These sheaths are designed for intra-oral use only.

When applying the sheaths, slide the handpiece with the LED’s facing down under the white flap. Push the handpiece in until the end of the sheath is taut, then peel away the top blue layer and the bottom paper layer. It is recommended that you use the bottom paper layer, or a gloved hand to press the sheath against the lens for approximately 3 seconds.

It is important that the lens portion of the LTE camera not be cleaned with any abrasive materials and or chemicals.

Warranty, Tech Support & Repair Procedures

Digital Doc LLC agrees to guarantee parts and labor for each IRIS LTE camera purchased by the doctor for the term of one year from the date of purchase, when used in accordance with manufacturer’s instructions. In the event a product is returned by the dealer, or the end user, and the warranty has expired, Digital Doc LLC reserves the right to collect a reasonable fee from the end user for services mutually agreed upon.

Digital Doc LLC does agree to replace any defective camera, free of charge, during the first ninety (90) days from the date of purchase. After the first ninety (90) days, Digital Doc LLC, will repair under warranty the defective item and pay the shipping to return the repaired item to the customer. The customer will be responsible for shipping charges to Digital Doc. If the customer elects to ship the product three-day economy, Digital Doc LLC, will return-ship in the same manner. Further, if the customer elects to ship the product overnight, Digital Doc LLC will reciprocate in the same manner.

Digital Doc LLC will require the end user to phone the Technical Service Department at 800.518.1102. Please have your camera serial number ready prior to contacting Technical Support. Once the cause of the failure has been determined, Digital Doc LLC will issue a "Return Merchandise Authorization" (RMA) number to be written clearly on the outside of the package in which the item is shipped. Items shipped to Digital Doc LLC without the RMA written on the outside of the package will be returned to the customer at their cost. No items will be received for warranty or non-warranty work without the RMA number printed clearly on the package. All non-warranty repairs will need a credit card, or some form of payment prior to the repair work being authorized.

If your repair is deemed under warranty, Digital Doc LLC agrees to repair or replace the item, at Digital Doc’s discretion. The item will then be shipped to the person, or persons whose name appears on the shipping label. All non-warranty repairs will be billed at $135.00 (USD) per hour plus parts. All refusals to authorize non-warranty work will be subject to a one-hour minimum charge. Loaner units are not available.
