IRIS Illumination Ring

# IRIS®

## Brilliant Extra-Oral Photography with IRIS

- » Save directly to patient records
- » Auto on/off
- » True Spectrum LED Lighting Ring
- » Rechargeable battery
- » Simple USB charging

See the new *Digital Doc Glo* light up those full face, full smile, upper and lower arch shots with bright True Spectrum LED lighting for sparkling color and sharp detail.

Now all your extra-oral photos taken chairside can be immediately saved to patient's files. No more wasted steps with downloading disks and extra cameras, saving valuable time and money.

The Glo recharges directly from any USB port and features a simple auto on/off switch when slipped onto your IRIS camera.
